Dear

7 MAR 1988

STAT

I want to thank you for allowing the time to come to the Defense Personnel Security Research and Education Center on 19 February to give his presentation on Soviet Espionage in the United States. The talk was well attended both in terms of numbers and organizations represented. All came away with a heightened understanding of the threat and the techniques used to penetrate our facilities by the Bloc countries.

STAT

is to be congratulated on his enthusiasm and his ability to bring the subject into clearer perspective for a wide audience. It is clear to us that he is one of the foremost chroniclers of espionage activity.

STAT

STAT

Conversations between Dr. Roger Denk of PERSEREC and Dr. Kathy Herbig of BDM Corporation suggested mutually beneficial research. As you know, maintains unclassified records on espionage perpetrators in a non-automated filing system. We have been doing preliminary research into the history of espionage with particular emphasis on the post World-War II era. Bob indicated a willingness to assist this effort by providing additional data from his files, pending your approval.

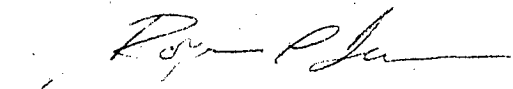

STAT

Unless you have objections to this collaborative effort, Dr. Herbig and Dr. Denk will provide with details of the study and the work accomplished to date.

Again, thank you for allowing to come and provide us with an entertaining and informative three hours on a topic close to our hearts.

Sincerely,

Carson K. Eoyang, PhD
Director, PERSEREC
